COUNTLESS friends and colleagues from around
the whole world...

Faculty of Economics

- we educate future managers and economists in the spirit of our motto 'Effectively Together'
- we encourage the entrepreneurial thinking of our students
- we cooperate with important businesses and institutions on applied research as well as practical training
- we support the international activities of our students and strengthen international relations
- we were designated the first Fairtrade faculty in the Czech Republic in 2013

Faculty of Arts

- we offer education in the fields of philology, historical sciences, and the sciences of art and culture
- we offer bachelor's programmes with free combinations
- we offer the option of obtaining double degrees in French, Spanish, and Italian
- applicants for teacher training for secondary schools can always choose from two specialisations
- teacher training for secondary schools may be studied across faculties in selected programmes

Faculty of Education

- we organise studies as well as research and artistic activities at 15 departments
- we have more than 70 years of experience with raising and educating future teachers
- we prepare experts for education in the 21st century, Pro Futuro teachers
- we execute scientific projects focused on innovations in upbringing and educating
- apart from teaching programmes, we also offer many profession-oriented programmes

Faculty of Science

- we offer studies focused on the fields of biology, chemistry, physics, informatics, and mathematics
- we provide training for future secondary school teachers in selected programmes
- our international teams perform world-class scientific research
- students participate in research projects all around the world, we operate our own research station on Svalbard

Faculty of Fisheries and Protection of Waters

- ♥ our focus and range of programmes are unique in the Czech Republic and central Europe
- ♥ we are a top-class scientific facility focused on research in fisheries and protection of waters
- ♥ our activity builds upon the tradition of fisheries in the South Bohemian Region
- ♥ we also participate in conservation projects, e.g. the reintroduction of crayfish into Czech waters

Faculty of Theology

- ♦ we offer religious studies, philosophy, charity and social work studies, free time education and theology studies
- ♦ our graduates find employment in public, non-profit and governmental institutions, in education, and church organisations
- ♦ we join Czech and international experts in excellent research projects
- ♦ we emphasise expertise, humanity and social responsibility

Faculty of Health and Social Sciences

- ♥ we prepare specialists for the healthcare, social, and security sphere
- ♥ many hours of practical instruction in healthcare and social institutions or crisis management bodies
- ♥ we take part in a number of humanitarian, development and charitable projects
- ♥ unique training in the Simulation Centre for Health-oriented Fields, Physiotherapy Centre, and other specialised classrooms
- ♥ wide range of graduate employment options

Faculty of Agriculture and Technology

- ♥ we are an integral part of the agricultural tradition of the region
- ♥ we perform quality research and develop modern technologies not only for agriculture
- ♥ we offer an attractive study environment including friendly teaching staff
- ♥ we cooperate intensively with agricultural companies and link study with practical training
- ♥ we have our own microbrewery, meat processing plant, and mini dairy

31 national cultural monuments in the region
